County of San Luis Obispo

TO: Board of Supervisors

FROM: Public Works
Doug Rion, County Surveyor

VIA: Phil Acosta, Right of Way Agent

DATE: 3/18/2014

SUBJECT: Submittal of a resolution for the acceptance of offers of dedication for the widening of a portion of Buckley Road, County Road No. 2089, San Luis Obispo. District 3.

RECOMMENDATION

It is recommended that the Board approve the attached resolution to accept offers of dedication for widening a portion of Buckley Road, County Road No. 2089.

DISCUSSION

Due to the ongoing traffic collision pattern on Buckley Road near the intersection of Thread Lane, staff sought and secured a Federal Highway Safety Improvement (HSIP) grant for this location.

The Buckley Road Two-Way Left Turn Lane Safety Project, Contract No. 300490, Federal-Aid HSIP-5949(148), will consist of the construction of a two-way left turn lane and widening of shoulders along Buckley Road, County Road No. 2089 between Thread Lane and Buttonwood Way south of the city of San Luis Obispo.

The design of the improvements has determined that additional road right of way is necessary for the construction of the project. Approval of the recommended action will accept existing offers of dedication for public road easements to provide a portion of the additional public road right of way necessary for the project. Your Board will be presented with recommendations to acquire the balance of necessary right of way in future actions.

OTHER AGENCY INVOLVEMENT/IMPACT

There is no other agency involvement in this matter.

The improvement project funding is provided under HSIP from the Federal Highway Administration which is administered by Caltrans.

Staff has notified property owners and conducted a neighborhood meeting regarding expected project impacts.

FINANCIAL CONSIDERATIONS

There is no cost associated with this action since there is no additional length of new road being accepted into the County road system.

RESULTS

The result of this action will provide additional public road right of way for portions of Buckley Road, which is necessary to construct and maintain future road improvements that will improve traffic safety and serve the public's transportation needs. This will lead to a healthy and safe community.
